THE WORLD MOVES.

We have only to go back to the time of Charles I. to come upon the discovery of the circulation of the blood. To day we understand that the life of the body is in the blood, and that impurities in it are the seeds of disease. Whatsoever improves the digestion and stimulates the Liver, Lungs and Kidneys, drives out these impurities, or disease germs, and enriches the blood, and is, therefore, the source of health and strength. Thus far in the history of medicine nothing has been so successful in this as

WAMPOLE'S PREPARATION,

of the nutritive properties of Pure Cod Liver Oil, with Hypophosphites, Malt and Wild Cherry. It makes fat which is like fuel to the system; is scientifically combined, and a specific for Fevers, Bowel Complaints, Debility and wasting diseases. There is no bad taste to it. You get all the curative properties of the cod liver oil, but not a whit of its offensiveness. How different from the old-fashioned mixtures! Well, the world moves, and this remedy illustrates the fact. It is a scientific modern combination of the best of curatives made palatable as honey. Sold by all chemists.

Of the multitudes who have used our preparation, or are now using it, we have never heard of any one who has been disappointed in it. No claims are made for it except those which are amply justified by experience. In commending it to the afflicted we simply point to its record. It has done great things and it is certain to continue the excellent work. There is no honest affirm - no medicine which can be used with greater and more reasonable confidence. It nourishes and keeps up the strength during those periods when the appetite fails and food cannot be digested.

To call a shirt a fit
When it isn't, is fibbing—
Call a fit a fit
when it fits. The shirt
that doesn't, isn't worth
calling a shirt.These new arrivals are
in every sense shirts, and
no room for the tines fib
to squeeze in.At "newly" small prices.

SHIRTS MADE TO ORDER.**The City of Hamburg**

is a feature of our store and "makes one hungry." There the daintiest delicacies of the world are temptingly displayed. Findon haddock, cod roe, sardelles, herrings, (smoked and pickled) boiled ham, smoked halibut, spromen in del, fresh cream cheese, sliced bacon, herrings, eastern sausage, imported sausages, fromage de Roquefort.

Finnan Mince—Procure a good large smoked haddock, and remove the skin by holding that side of the fish toward the fire, when it will be found that it can be easily slipped off. "Take the fish from the bone, chop very finely, allowing to a half pound of the chopped fish an ounce and a half of salt butter, half a teaspoonful of milk, thickened with a little flour, half a teaspoonful of finely minced parsley, and pepper to taste. Put the mixture in a small pan and stir vigorously, until thoroughly hot with a wooden spoon. Pile the mixture high on a hot dish and ornament all around with neat slices of hot butt - toast. Serve with a garnish of finely chopped parsley or hard boiled yolk of egg.—Home Notes.

ALL ALONG THE DOCKS**AMERICAN BARK FRESNO ARRIVES IN PORT.**

Fast Round Trip of the Schooner Muriel—Name of Ship T. F. Oakes Changed—Gossip of the Front.

The Susquehanna is now loading in earnest, three ports being kept busy.

The bark Palmyra, 1299 tons, has been chartered by Pope & Talbot to bring down a cargo of lumber from Port Gamble.

The R. P. Rithet will finish discharging cargo tonight. The W. G. Irwin is already out and awaiting sugar. She is next to load after the Newsboy.

Capt. King departed on the Kinau for Hilo today to look into the new wharf business. He says the old wharf is in a bad condition, and he will see what can be done.

The Morning Star arrived in San Francisco on the 2nd, having encountered severe gales on the way. She is undergoing extensive repairs and will be tied up there for some weeks.

The W. H. Macy has 2600 tons of sugar stowed away, but needs 1000 tons more for a full cargo. Capt. Amesbury is commencing to get anxious. He had fully expected to get away on last Saturday.

The little steamer Iwa, which came down from Honipu on Saturday, went on the marine railway this morning, together with the gasoline launch brought down by the Irmgard and stove in while being discharged.

The schooner W. H. Talbot came off the ways yesterday and took in ballast. Today carpenters are at work putting in a new deck under the donkey engine. When it is completed, the Talbot will sail for the Sound.

Capt. Fitzgerald, former master of the Helene, left on the Kinau this morning for Hilo, to enter upon his duties as pilot there. He says he will "rusticate" for a couple of weeks first. It is probable that the Captain will receive an appointment as surveyor of the port. The matter has not yet been settled.

The schooner Muriel arrived in San Francisco on the 2d from Honolulu and ended a remarkably fast round trip voyage to the islands. She left there thirty-five days ago for Honolulu, discharged her cargo here, loaded again and sailed back ahead of all the rest of the sugar fleet.

The Amapor's cargo has been well broken into and Capt. Cameron hopes to have it all out and be ready to sail for Sound again one week from tomorrow. Mr. Gilchrist, the owner, said this morning that the steamship's next voyage would be to Central America. She will return here again in a few months, but it is not probable, as the Central American trade is more profitable.

The American bark Fresno, Capt. Underwood, arrived in port yesterday afternoon, twenty-five days from Port Townsend, with 990,000 feet of lumber. Fine weather was experienced all the way, with frequent calms, Capt. Underwood and his vessel are well known here. Recently, while en route from the Orient to the Sound in ballast, the Fresno lost her rudder in a terrible storm. A jury rudder was rigged, and the bark made San Francisco safely, receiving repairs there.

The American ship T. F. Oakes, known to sailors as the vessel with the "red record," has changed her name to New York. The vessel has never ended a voyage since she was launched without some of her officers being charged with cruelty. She recently ended a voyage of 258 days from Hongkong to New York, and on her arrival in port her master, Capt. Reed, was arrested on charges of starving the crew. In addition to changing the name of the vessel, the owners want a new commander and Capt. Peabody, who was master of the Tam o'Shanter, has been offered the ship.

ARRIVALS.Tuesday, May 18.

Natures own spring medicine, guaranteed to be bottled as flowing from Natures Laboratory.

By its continuous use impurities of the blood are removed, the stomach and digestive organs are strengthened, the liver acts freely, and the skin and kidneys are kept in good working order.

Professor Hilgard

of the University of California, in his annual report for the year 1890, says:

"As a purgative, this water is very effective, and not painful in the least. It was a medicinal water used by the Indians. The composition of this water is very unusual, in fact the composition is very remarkable, as it contains nearly every chemical element of value to the human system, whether to become a part of the Membraneous Secretions, the Blood or the Bones."

The name "Santa Barbara" is known the United States over as a widely patronized health resort by invalids as well as those who feel the need of a change of air and diet. The Veronica Natural Mineral Water is bottled at Santa Barbara in its natural state, and if taken as directed the
